# PRESENTATION OF THE PROJECT

## With ENTER we intend:

- 1 to support adult educators with an innovative career-focused mentoring methodology for fostering the inclusion and employability of low skilled marginalized young adults;
- 2 to support adult educators to extend their services with innovative curricula and methodology for career mentoring and promote high-quality educational services in non-formal education institutions and organizations;
- 3 to professionalise adult educators and enable them to support individual career development and aspirations of low skilled, unemployed young learners overcome skills mismatches in the high demanding labor market;
- 4 to foster employability and socio-educational and personal development of low-skilled marginalized young adults with new tools which will be developed with the aim to acquire and develop their high-quality career management skills and competencies.

Over a period of 2 years, the project will produce guidelines for career-focused mentoring and training material for tutors and mentors.

# THE KICK-OFF MEETING

On 4 February 2021, we held the first partner meeting online.

During the meeting, the coordinators presented the main project documents, all the partners introduced themselves, overviews of the main intellectual outputs were presented, and we agreed budget management and shared tasks.

On 9 March 2021, all partners will participate in a webinar organised by Apricot Training Management Ltd (UK). During this, we will be introduced to the diagnostic which will later be adapted into partner languages and then used in discussions with Mentees about their soft skills.
